Each One! Bless One! You Make a Difference!

* * * *

The idea here is that mountains or caves will be able to hold pockets of air should water, wind, and fire overtake the surface of the earth.

"I am raising up the Babylonians, (Chinese, Romans, Nazis, Japanese, Russians, Americans—Europeans and USA Americans; historically the most technologically advanced or leading nation.) **that ruthless and impetuous people,** (suffering, death and destruction without compassion, remorse, nor accountability—hear: slavery, bondage) **who sweep across the whole earth to seize dwelling places not their own.** (Invasion of any Sovereign Nation: Afghanistan, Iraq, and soon Iran, Syria, Eastern Europe, and Central America.) **They are a feared and dreaded people;** (only Russia and China can stop them; all others live in apprehension of them, knowing not what they will do next.) **they are a law to themselves and promote their own honor.** (Pride) **Their horses are swifter than leopards,** (Hummers) **fiercer than wolves at dusk.** (Uses night goggles; attacks at night.) **Their cavalry gallops headlong** (Bradley Personnel Carriers;) **their horsemen come from afar.** (They bring their tanks from distant places; tough task even today. Long supply lines.) **They fly like a vulture swooping to devour;** (Apache, Blackhawk, Sigorsky, and Huey helicopters.) **they all come bent on violence.** (Plans include war, not diplomacy—violence instead of non-violence.) **Their hordes advance like a desert wind and gather prisoners like sand.** (They come in large groups and take the life out of everything in their paths; making physical slaves, emotional slaves, financial slaves, slaves of tradition, slaves of lust, etc.) **They deride kings and scoff at rulers.** (Leaders of Sovereign Nations have no standing, therefore can do with as they please.) **They**

laugh at all fortified cities (They drop 2,000 pound bombs on Innocents at night while they sleep from overhead—what can stop that?); **they build earthen ramps** (earthen birms—mounds of dirt (so the enemy cannot see them or hear them fire) from which they fire their howitzers (12-20 mile ranged artillery).) **and capture them. Then they sweep past like the wind** (Aircraft: fixed, props, jets, drones, and gliders.) **and go on— guilty men, whose own strength is their god.”**

HABAKKUK 1:6-11 (INT)

End of the World? – 6. Please read End of the World? -1, before continuing, Friday, 15 August 2008 Devotional. Thanks. **“Then ”** **“they will say to the mountains, “Fall on us!” and to the hills, “Cover us!”** **Luke 23:30 (INT)** Translated, this means find a cave; find some dirt to get under—dirt with rock on top. That is why you hear young people talking about an underground world, a world of refuge. Theologians think of Petra, Jordon. I am sure anyone living near a mountain range, or know where there are caves are now considering the possibilities. In metro Atlanta, there is Stone Mountain, the largest granite outcropping in the US and Kennesaw Mountain. The idea here is that mountains or caves will be able to hold pockets of air should water, wind, and fire overtake the surface of the earth. This sounds so far-fetched as I am writing it.

As a Christian, I believed that all my life that this event would happen. But I never believed that it would happen in my lifetime. I always thought that my children or their children would have to deal with it like they will the \$700 billion “FAT CAT” bailout should this not be the “Big One.” But with the planetary events destined to occur, the unknown is the severity of the events, I would continue to believe that these events, which are coming, would happen decades from now.

Whether most of the Father’s Creation is wiped off the face of the earth or just half or so, there will be a Remnant and there will be an age of Darkness. I am talking about a time without power, electrical power; no power generation from any present man-made sources.

This is how it is going to look:

1. People will not believe that this will happen.

2. Some people will start saving dry goods, camping equipment, batteries, rope, blankets, warm clothing, etc. for existing in a powerless environment of cold.
3. People will see new planetary bodies and fear will overtake them.
4. Food and resources become in scarce supply as fear drives people to hoarding.
5. Security forces will be on the streets; guarding gasoline stations, banks, stores, other avenues of resources.
6. Our houses will become caves, but will not stand during the dramatic tectonic plate movements.
7. Very few automobiles will be operational; very few, mostly military.
8. Hospitals will be over-run; many doctors not to be found.
9. Northern hemisphere flooding, northern shift.
10. People to head south to equator and further to north of ancient Mayan temples; southern hemisphere points.
